Answer the following questions

Q1. What are the six physical divisions of India?

Ans. The six physical divisions of India are:

1. The Northern Mountains

2. The Northern Plains

3. The Great Indian Desert

4. The Peninsular Plateau

5. The Coastal Regions

6. The Island Regions

Q2 Why is the peninsular plateau a peninsula?

Ans A peninsula is a piece of land which is surrounded by water on three sides. The Peninsular Plateau has the Arabian Sea on the west, the Indian Ocean on the south and the Bay of Bengal on the east. That is why peninsular plateau is a peninsula.

Q3 What do you know about the Great Indian Desert?

Ans This region is dry, hot and gets very little rainfall. Here, days are hot and nights are cold. It lies mainly in the state of Rajasthan.

Q4 Why is the Great Indian Desert not very populated?

Ans The Great Indian Desert is not very populated due to the harsh living conditions. Like this region is dry, hot and gets very little rainfall.

Q5 Why is it possible to grow plenty of crops in the Northern Plains?

Ans It is possible to grow plenty of crops in the Northern Plains because the rivers that flow
