Q2. When does he realise that he has lost his way? How have his anxiety and insecurity been described?

Ans. When he was busy in many attractive things, after that he looked for his parents, they were not there, he turned to look on either side but there was no sign of them. He began to weep, he ran here and there. Tears rolled down from his eyes, face was twisted with fear.

His yellow turban untied and his clothes became muddy. After much efforts he started sobbing.

Q.3. Why does the last child lose interest in the things that he had wanted earlier?

Ans. The child loses interest in the things because that time he was with his parents, when a child is with his parents he feels safe and secure and when parents are nowhere now they feel insecure. The things which attracted him now he does not like at all. He only wants his mother and father because he loves them the most.
